

# Covid-19 interdisciplinary training for allied health in critical care

Michael Pang, Ellie Orr, Nick Haliburton and Ali Griffiths  
**Grampians Health Ballarat**

# Project Purpose

Develop a **sustainable education framework** to improve capacities in managing **acutely unwell and critically unwell COVID-19** across Grampians Health. Developing capacities will improve current skills and expertise to foster **collaboration, communication as well as site-based independence** in preparation for management of COVID-19 and critical care surges.

Disciplines	Interprofessional				Physiotherapy		Speech Pathology		Dietetics	
Level 3	Alternative models of care (Team-Model & Split Team Model)		Complex weaning of ventilatory support & Tracheostomy		Proning - Protocol and Procedures	Mobilizing the Ventilated Patient	Communication (Ventilation or Tracheostomy)		Model of care - metabolic cart interpretation, troubleshooting, education	
Level 2	Caseload management and discharge planning for patients with COVID- 19 (D, S, P)	Foundational Principles of Mechanical Ventilation (D, S,P)	ICU-AW and Early Rehabilitation (S, D, P)		Clinical Indications for Prone Positioning	Rehabilitation Post Critical COVID-19	Swallowing with Tracheostomy	Dysphagia and dysphonia post extubation/decannulation	Metabolic Cart Application	Advanced Nutritional Management for Critical Care  - Nutrition risk - Hormonal response - Endogenous substance utilisation - Impact long ICU adm - Nutritional impact of meds/therapies
Level 1	Recognizing the deteriorating Patient (S, D, P)	Oxygen Supplementation (S, P)	Suctioning (S, P)	Communication & Cognition in the Critical Care Environment (S,D,P)	Positioning for Ventilation		Communication options with tracheostomy and/or ETT		Introduction to critical care nutrition: metabolic response to critical illness, nutrition assessment, planning nutrition interventions, monitoring.	
	Pathophysiology of COVID-19 (S, D, P)	Routine Cardiorespiratory Investigations (S, D, P)	Introduction to Critical Care (S, D, P)		Routine ICU Respiratory Assessment		Dysphagia management in critical care			

# Modules for Evaluation

Pathophysiology of  
COVID-19

Recognising the  
Deteriorating Patient

Oxygen Therapy

Introduction to  
Critical Care

Caseload  
Management for  
People with COVID-  
19

Suctioning

Routine  
Cardiorespiratory  
Investigations

Mechanical  
Ventilation

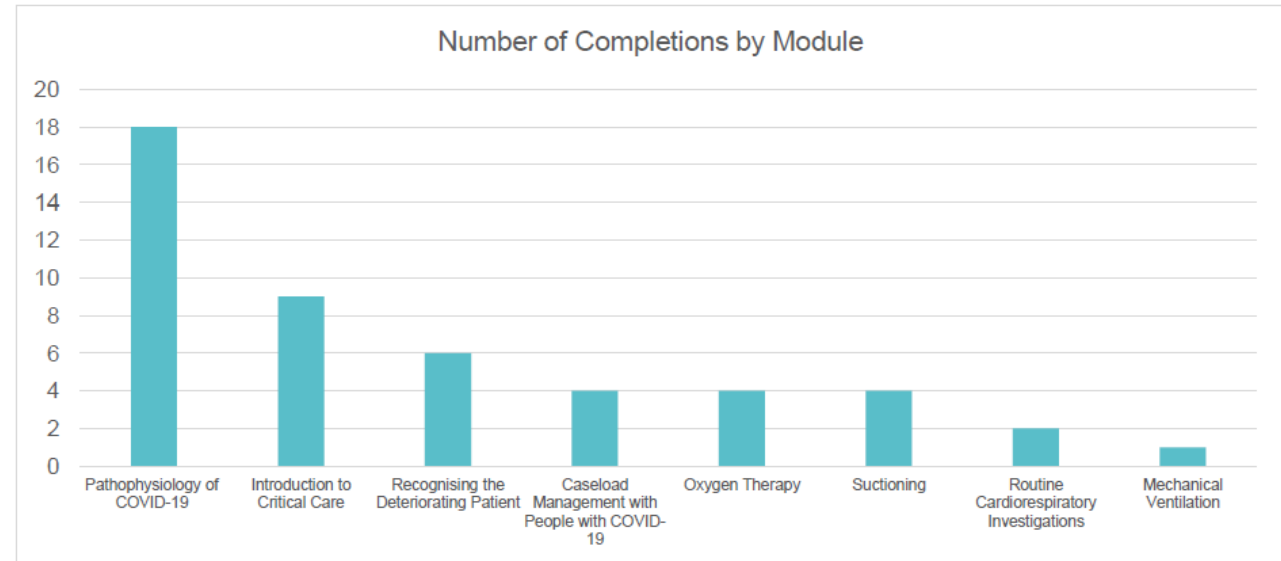

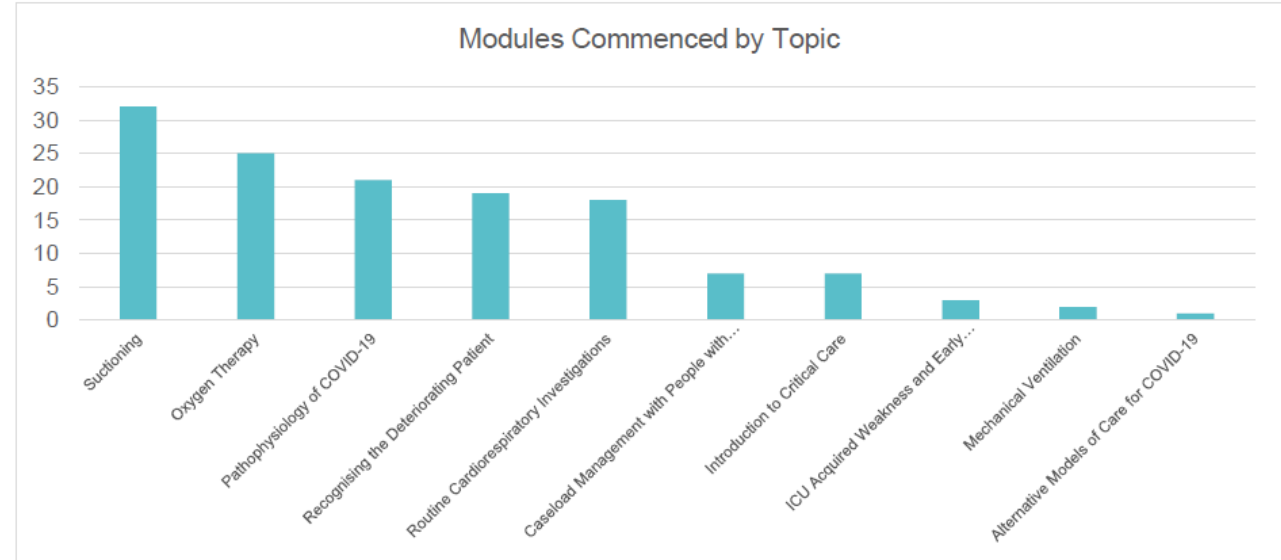

# Method

## New World Kirkpatrick Model

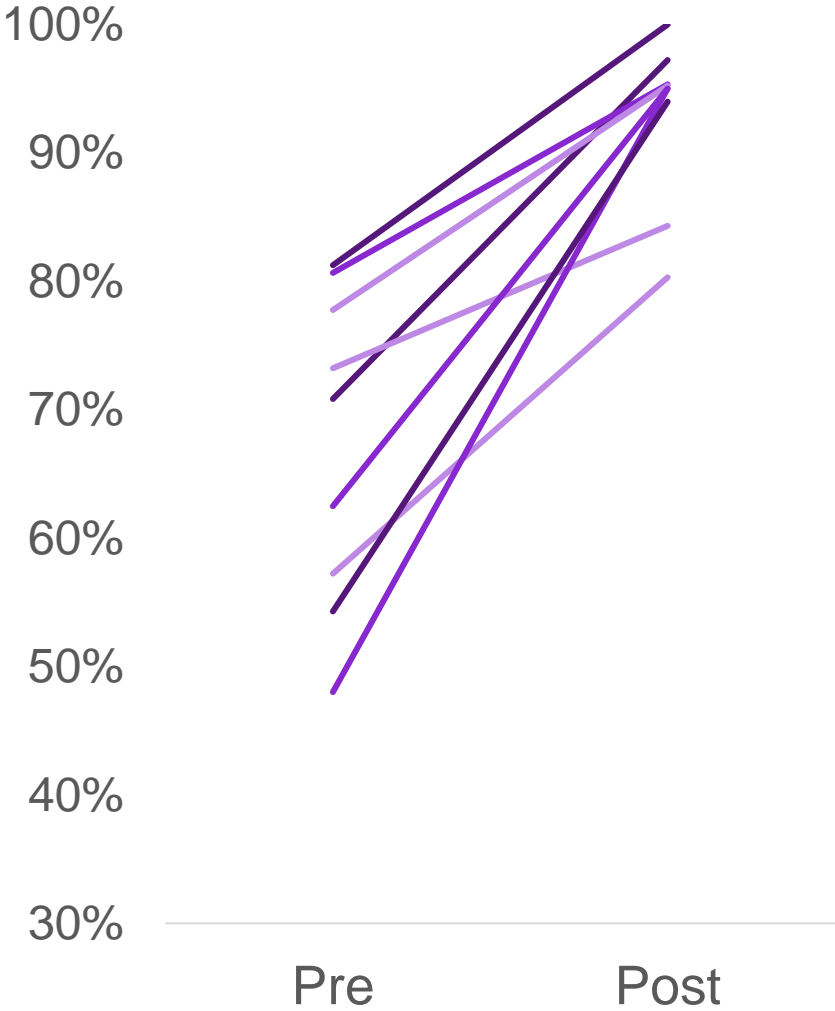

## Level 1 (Reaction)

**Level 2  
(Learning)**

### Knowledge

### Self-Efficacy

## Level 3 (Behaviour)

46

# Observational peer assessments completed by clinical staff in the workplace

### Performance Criteria

Task Criterion	D	A	S	I	Comments
Learner able to access and locate CXR on Local hospital computer system.					
<b>Outlines systematic approach to CXR analysis:</b> CXR Quality: <ul style="list-style-type: none"> <li>• Patient details</li> <li>• Projection</li> <li>• Patient Position</li> <li>• Patient Rotation</li> <li>• Exposure</li> </ul> Clinical Findings A- Airways B- Breathing C- Circulation D- Disability E- Everything Else					
<b>Describes findings using systematic approach to CXR analysis:</b> CXR Quality: <ul style="list-style-type: none"> <li>• Patient details</li> <li>• Projection</li> <li>• Patient Position</li> <li>• Patient Rotation</li> <li>• Exposure</li> </ul> Clinical Findings F- Airways <ul style="list-style-type: none"> <li>• Trachea</li> </ul> G- Breathing <ul style="list-style-type: none"> <li>• Volume</li> </ul>					

### Outcome

Candidate meets the Competency Standard	<input type="checkbox"/>	Candidate does not meet the Competency Standard	<input type="checkbox"/>
Candidate Signature		Assessor Signature	
Candidate Name		Assessor Name	
Candidate Designation		Assessor Designation	
Date Signed		Date Signed	

### Recording Instructions

Candidate	Assessor
Candidate is responsible for uploading completed rubric as per module description document.	Nil

*Strongly Agree*

*Somewhat Agree*

**Level 4  
(Results)**

**Relevance**

Perceived relevance to additional skills potentially required during a COVID-19 surge period.

**8/10**  
FINDING

**Staff preparedness**

Response to *I feel more prepared to manage patients with COVID-19.*

**8/10**  
FINDING

**Interest in allied health educational opportunities**

Response to *I would like to see more internal education opportunities within Allied Health at Grampians Health.*

**10/10**  
FINDING
